

Please note that I have a huge concern over allowing K-Love and Air 1 off the air. I have been listening to K-Love for many years now and it is the only station I listen to. It serves the community by being the only station that plays all day contemporary Christian music. The effect it has on me and others in the community is that it is encouraging to us and has a great moral effect. Not only is the music great, but the news is always interesting to me since it is the only local news I get with a Christian prospective. Please do not take away our Christian Radio!

Thank you,
Sylvia Simons
